We have partnered with CoFi, a tool for handling patient payment of co-management fees for premium (cash pay) procedures. With CoFi, our practice can process patient payments for our fees and yours - conveniently & compliantly - right at our office.

This means you are paid upfront, at the same time we are, and the patient has a much better payment experience – while ensuring your fees are handled compliantly and paid directly to you by the patient.

In addition, you have visibility into active and past payments through CoFi. There are additional useful benefits for your practice, and we think this is a win-win for both our practices.

If you are not already a CoFi partner, and this is something you are interested in, we would love you to connect you with our account executive, Erin at CoFi.
